SPECIAL EDITION

TWO CUBAN DEVELOPMENTS

Mess Kit Is Extremely Small but All Race Horse.

Baladin Changed From a Seemingly Hopeless Case to a Fine Handicap Racer.

HAVANA, Cuba, March 15.—The histories of Mess Kit and Baladin, both of which have been sensational performers in Cuba of late, is interesting. Both were bred by Major August Belmont at his French stud and both were sold for low prices as yearlings. They showed the scarcity of feed during the war, as they were immature and in strong contrast with the other youngsters born in the United States.

Mess Kit, by Tracery—Moneta by Spornmint, was so small when offered in the sales ring at Saratoga in August, 1918, that he only made \$450 and fell to the bid of A. S. Lillard of Kentucky, who took his "pony" home and wintered him on blue grass and crushed oats. He grew a bit, but was still a pony, but a stoutly made one, when he went to Cuba after New Year's in 1919. His owner carried along a photograph of the colt and when Orestes was performing well he showed the picture to a number of Cuban sportsmen and prophesied that his son of Tracery also needed only an opportunity to make good as Orestes had. Mr. John Sanford, who bred him, it will be remembered, sold Orestes as a two-year-old to George O. Foley for \$1,400 and when brought here the chestnut colt improved so quickly that Senor A. H. Diaz took him over at \$2,500.

Messrs. Tolon and Fernandez-Morrell, who race under the name of the Armonia Stable, finally took an option on the Tracery—Moneta colt, now known as Mess Kit, for \$2,000, with the understanding that the deal would be closed if their trainer liked the colt when he went to Lexington at the close of the meeting there last spring. Though he was small, Carter found Mess Kit "all horse" and the deal was closed.

After the Saratoga meeting the Armonia horses spent six weeks at the Empire City course. Mess Kit put on much muscle and showed that he could run, but he was still not over 14.2 hands high and his trainer was somewhat discouraged. His speed in spots was remarkable all this time. When he came here Carter declared that the diminutive son of Tracery could make his watch do fancy stunts at times. He invited the partners out to see a trial and Mess Kit put up such a ridiculous exhibition that they were inclined to laugh at Carter. The latter kept his counsel and started in to tone the little fellow in earnest. He came along rapidly and finally distinguished himself by outworking his stable companion, Lackawanna, a winner of some good races at two, three and four years of age. Mess Kit was thereupon put in races and performed so poorly that Carter was at his wits' end. A second essay was somewhat better, but on another trial he relapsed into his old habits of following the others home and finally the Armonia Stable folks delivered the ultimatum "One more chance for that bird and if he doesn't make good, it's a three-hundred dollar top and bottom 'seller' for him."

What followed is history. Mess Kit beat a crack band of sprinters readily in fast time and followed it up a week later by winning the Cuban-American Handicap, for three-year-olds, at three-quarters of a mile, with 106 pounds up, running the first quarter in 22½, and the half in 46 seconds. He is now undergoing a preparation for the \$10,000 Cuba-American Derby, which will be run on the closing day of the present meeting.

Mess Kit is the smallest thoroughbred in training in this country and is perhaps as small a race horse as has appeared in many years, but he has speed to burn and a stout back, as he races best when under pressure. He is bred to stay and he will not lack for support in the Derby.

HOW BALADIN WAS TOSSED ABOUT.

Baladin's history is a remarkable illustration of the uncertainties of racing. This five-year-old by Negofol—Dame Beauty, by Octagon—Bella Donna, by Hermit, a sister to the great Belldame, was most poor and unattractive when sold as a yearling to W. A. Walsh of Kentucky. Mr. Walsh brought him to Cuba when two years old, but did not start him though he worked the colt a quarter better than 23 seconds. When pressure of his oil business called for more of his time Mr. Walsh turned Baladin over to John S. Ward. The man who developed Dodge, Franklin and other good horses found nothing attractive in Baladin and passed him on to Roscoe Goose, who found three-quarters in 1:19 his limit. When J. J. Holtman was leaving for Cuba last autumn Baladin, then a gelding, occupied a stall in his car. He was poor and weedy when he came to Cuba, but he had jumping conformation and attracted my attention, and Holtman was told that the horse would make a performer through the field if given a chance, but that the first thing to do would be to build up the young horse and get him to take an interest in life. He was one of the poorest horses on the track despite Holtman's best efforts, and as a caretaker the ex-starter is pretty good.

Baladin finally won a cheap race on a slow drying out course, and one day Holtman "chaffed" Fitz-Gerald in the paddock, saying as he put the boy up:

"You daren't make me an offer for him, the purse if he wins to go to me."

"I'll give you three-fifty," was the reply. Fitz-Gerald had an open order from a northern friend to buy him anything that looked like a jumper.

After the race, in which Baladin was unplaced, the transfer was arranged and the northern gentleman notified of the purchase. A few days brought a letter saying that he did not need the horse and that if there was another purchaser he would let the chance pass. There was an auction sale of horses in training a few days later and Baladin was consigned to it, and at the sale Baladin was knocked down to H. E. Davis, known the country over as "Doc." The price was \$255, and Davis at once set

(Continued on second page.)

DAMASK AND HIS ANTECEDENTS

LOUISIANA DERBY WINNER A ST. SIMON HORSE, BUT ALSO CARRIES IN HIS VEINS THE MOST SUCCESSFUL AND POTENT AMERICAN LINES OF BREEDING

(By EXILE)

The Louisiana Derby, the first of the races run in the United States under the name of Derby, was won last Wednesday by Mr. H. P. Whitney's homebred Damask, a brown son of All Gold—Crinoline II., by Broomstick. Last November, when racing at Pimlico, Damask beat a more than good band for the Juvenile Handicap. Among the beaten ones were Kinnoul and Carmandale. Discussing the race afterwards with trainer James Rowe, I ventured the remark that in Damask he appeared to have a colt of more than ordinary racing merit and was told "that fellow has a possible chance for next year's Kentucky Derby." Stranger things have happened than that Damask should, in fact, win the big Kentucky race; at all events, he will have condition on his side, which from all accounts will be lacking in the eastern contingent on account of the inclemency of the weather. Louisville trained horses, however, are from all reports more advanced, and at Louisville I understand are quartered the recent Simms-Oliver purchase, Prince Pal, and Mr. G. W. Loft's pair, On Watch and Donnacona. These I hope to be able to run down and interview during the course of the next few weeks.

Damask's sire, All Gold, a chestnut son of Persimmon—Dame d'Or, by Bend Or, had not up to the appearance of Damask attained to any particular success as a sire. There is a prejudice, I know, against chestnut sons of Persimmon as sires, more on account of the failure of the Ascot Gold Cup winner Zinfandel as a sire, I suppose, than anything, and as for myself I will admit to having a decided preference for the bay and brown descendants of the Welbeck Sultan.

Following his Juvenile Handicap win Damask gave a rather indifferent display in the Walden, making no show at all behind Dominique and Donnacona. On that day, however, the All Gold colt never seemed really to take hold of his bit and there may be a queer streak in him somewhere, as there is in many of the descendants of St. Simon. Damask is bred to improve on any form he displayed as a two-year-old, and this is a point which rarely receives the consideration it should at the hands of those who write of horses. All Gold cost Mr. Whitney a pot of money as a yearling, something like \$14,000, I think it was, but the horse never did much on the race course to compensate his owner for his original outlay, only winning one race, and this the Newmarket Handicap of £1,000 as a four-year-old. All of you know what a good sire was Persimmon and of how he again headed the winning brood mare sire list last year in England. All Gold's dam, Dame d'Or, is, moreover, sister to the best and most influential brood mare, Fairy Gold, imported from England, perhaps, since the days of Galopade, for Fairy Gold is the dam of Mr. Belmont's champion Fair Play, of the successful English race horse and sire, Golden Measure, of the Wikiup premier Friar Rock, of Flittergold and Golden View, dam of Rock View, all of which is conclusive proof that Fairy Gold has earned for herself an everlasting niche in the equine halls of fame. By the way, the Friar Rock youngsters are now fast putting in an appearance in Wikiup, good ones, too, plenty of size, well formed, straight and nimble.

All Gold is a member of the Maid of Masham family, for which there appears to be no such thing as halt, and he is bred on the plan of uniting the strains of St. Simon and Bend Or, which has resulted in the production of such as Sceptre, Zinfandel, Pommern, etc.

In the lists of good producing mares published not long ago in "Daily Racing Form" I endeavored, and trust in part succeeded, in proving that a mare's racing ability has practically nothing to do with her after success as a brood mare. Damask's dam, Crinoline II., ran eleven races as a two-year-old in Mr. Whitney's colors in England and had another try as a three-year-old, but failed to score. Crinoline II. is by Broomstick, whose daughters are more than certain to attain success as brood mares. Broomstick's blood lines are convincing evidence of this, for, outside of his Bonnie Scotland descent, his dam, Elf, is a daughter of Galliard, a Two Thousand winner and a most successful sire in France and by Galopin—Mavis, by the best brood mare sire there ever was, the Herod Macaroni. Elf's dam, Sylvabelle, was a daughter of the Derby winner and a good brood mare sire Bend Or and Sylvabelle's dam, St. Editha, dam of St. Gatien, by the Herod horse Kingley Vale, and this the famous Agnes family. Moreover, the old saying, "return the best blood in the dam to the best blood in the dam of the sire," still holds good, for in Damask's case there is a return of the Galliard of Elf to the Galliard of All Gold's granddam Dame Masham. Crinoline's dam, Petticoat, is a daughter of the Herod horse and good brood mare sire Hamburg and a member of that same Hanover line you seem to stand willing to see pass out, and so to Elusive by Sir Dixon, to Vega by War Dance, to one of the best producing mares ever foaled on this continent, the famous Ballet by Planet, and this the Maria West family, from which come such as the Kentucky Derby winner and all round race horse Exterminator, the fleet filly Regret, Ben Brush, Modesty, the only filly to win the American Derby; the international winner Rensselaer, the coming young sire The Manager, the Chester Cup winner David Garrick, etc. Oh, yes! American breeders of bloodstock have something to be proud of in the Maria West family, but as for many of the others which trace to an obscure tap root, it would have been better for the turf had they never been foaled.

Damask's victory in the Louisiana Derby is also suggestive of a St. Simon boom. For my part I have never been quite able to understand the nonsuccess and can give no logical reason for the failure of St. Simon horses as sires in this country. In every other land in which horse racing is carried on St. Simon horses have attained to marked distinction as sires, but here in the United States, the only stallion of St. Simon descent which is at all regular with his winners is good old Sain, which, though he was foaled as far back as 1894—they are a

(Continued on second page.)

HAVANA'S LAST WEEK HERE

Last Program Book of the Long Winter Meeting Distributed.

First Running of the Cuban Derby the Star Feature of the Final Day's Racing.

HAVANA, Cuba, March 21.—The United States, the last but one of the big feature races of the present meeting proved the attraction at Oriental Park this afternoon and proved the easiest sort of a victory for the consistent racer Cromwell, which picked up top weight, made all the pace and won in a canter. The distance was a mile and an eighth, for a purse of \$1,200. This was Cromwell's last race for the winter. When he galloped to the stand he received a rousing reception from the large following, he gathered here during the winter races.

This afternoon's race was run over a sloppy track. Heavy rains set in about one o'clock and changed the footing which was responsible for the numerous withdrawals.

Meliora, which beat some fair sprinters in the fourth race, was the easiest winner to score all winter.

H. E. Davis furnished two of the afternoon's winners in May Craig and Golden Chance, the horses winning the first and third respectively. At a sale of horses held in the paddock after Saturday's races the following horses were sold: Sister Susie, to the Armonia Stable; Grassmere, to Armonia Stable; Tranby to J. C. Boggess; Whizz to L. Baxter; Jacksnipe to Miguel Garces; and Luckrose to L. C. Carboneau.

The Armonia Stable bought the good selling plater Pomerene from L. H. Baxter at private sale for \$550. The Armonia Stable also purchased on private terms from J. W. Pangle the promising two-year-old filly Aiken, by Peter Pan—Easy Street.

Williams Bros' stable, which is in charge of Pete Williams, will be shipped to Louisville tomorrow. The shipment includes: Iron Cross II., Dr. Rae, Money, Grace, Star Baby, Little Marchmont and Lucinda. The stable has enjoyed a most profitable winter season, having earned a total of \$13,975.

The saddle work of Jockey F. Wilson is beginning to attract attention. His services are now in big demand. The lad rode his first winner just ten days ago, and since that time has ridden twelve other winners. The boy is under the wing of Kay Spence, who has developed many good riders. He will take Wilson to Kentucky with him.

The program book for the final week of the Havana meeting made its appearance yesterday, the main event of the week being the Cuban Derby, with \$10,000 added. The race will have its inaugural running next Sunday, the closing day. This race will serve as a fitting feature of the meeting's windup.

SPORTS OTHER THAN RACING.

The committee at Camp Columbia, in charge of the special contests to be decided at the track Monday, Roosevelt Memorial Day, have completed an interesting program and ought to attract that day the largest assemblage that was ever brought together at the Mariano course. Col. Engenio Silva, commandant at Camp Columbia, will act as associate steward in all the army contests. The hurdle race will be run promptly at 2 o'clock, followed by a pony race at 2:15. At 2:40 a regular running race, at 3:05 a race for officers. Immediately after this event a column of 400 troops from Camp Columbia, comprising infantry, cavalry and signal corps, under the command of Maj. E. Delgado, will make camp in the center of the field. The troops will be accompanied by their own band, while the marine band will play in the grandstand. After the last race the troops will be attacked by airplanes from Camp Columbia. The attack will be repulsed by other airplanes from Camp Columbia, after which the entire column will break camp and pass in review on the track in front of the grandstand. The officers' race promises to be one of the day's most interesting events, the distance being five and a half furlongs and the weights 145 pounds. W. Gargan has bought from J. W. Pangle the two-year-old filly Quarantine, by Peter Pan—Florence, for a private consideration. Pangle declares the filly the largest and handsomest ever seen. She has shown some fast trials over the local track.

Jockey R. McCann left today for New York, where he will join the stable of his employer, C. W. Forman.

Kiku, who beat a good band of milers in the Cuba Handicap a few days ago, came back again Saturday afternoon when she won the American Handicap. Kiku came from behind in a driving finish and beat Different Eyes by a half length. The pace was fast from the start, the winner running the distance in 1:11½.

Jockey Garner, who had the mount on Kiku, was suspended for five days for rough riding. Jockey Chiavetta was also suspended for five days for rough riding in the fourth race of Saturday. Present indications call for no more rain and it is expected the track will be fast again for tomorrow's racing and other sports.

VOLUME OF 1919 BRITISH RACING

From the current number of the English Racing Calendar the following interesting facts about the volume of present racing in England are gathered: During the past year the total value in stakes to the winners (not including prizes to seconds and thirds) of the 1,567 races decided in England was \$2,504,975. In Ireland there were 449 races, the first prize money being \$374,510; and in Scotland 59 races of the value of \$67,510. In 1913 the totals were: England, \$2,593,365; Ireland, \$201,115; in Scotland, \$66,925. The number of horses that participated in the various races in 1919 was 3,269, namely, 1,293 two-year-olds, 816 three-year-olds, 457 four-year-olds, and 703 five-year-olds and over. The totals for 1912 and 1913 were considerably above those for the past season.

HAVANA

The horses which seem best in Monday's races are:

Oriental Park—Havana, Cuba, March 21.
1—Northern Belle, Ravenssea, Sea Prince.
2—Francisco, Mike Dixon, Lackrose.
3—Jack Healey, Assign, Stiletto.
4—Delaney, Golden Chance, Magic Mirror.
5—JOHN JR., Phedon, Betterton.
6—Great Gull, Lithodick, Manokin.

Buffalo's Handicap.

BUFFALO, N. Y., March 21.
1—Northern Belle, Major Bradley, Sea Prince, Ravenssea.
2—Roundel, Francisco, Lackrose, Mike Dixon.
3—Lillian G., Jack Healey, Stiletto, Jack Dawson.
4—Golden Chance, Rora, May Maudsby, Pierrot.
5—JOHN JR., Buster Clark, Phedon, Bianca.
6—Fairly, Great Gull, Burlingame, Manokin.

Observer's Handicap.

1—RAVENSEA, Sea Prince, Plain Heather, Northern Belle.
2—Mike Dixon, Manganesa, Lackrose, Sea Beach.
3—Jack Healey, Prince Bonero, Assign, Stiletto.
4—Golden Chance, Pierrot, Magic Mirror, May Maudsby.
5—Sister Susie, John Jr., Phedon, Presumption.
6—Timothy J. Hogan, Great Gull, Manokin, Lithodick.

BRADLEY HORSES GO TO LEXINGTON

LEXINGTON, Ky., March 21.—Colonel Edward Riley Bradley's string of racers was today transferred from Idle Hour Stock Farm to the Kentucky Jockey Club track, where they are to finish their preparation for the spring racing in this state, under the eye and direction of the capable trainer, Dick Thompson, who has been with them at the farm all winter, receiving the juvenile members of the string from Manager Barry Shannon, who broke them last fall. The older members of the string are Believe Me Girls, Blushing Beauty and Balloze. The three-year-olds are: By Golly and Best Pal, both eligible to the Kentucky Derby; Beaming Beauty, Brotherly Love, Better Believe and the fast filly, Busy Signal, winner of the Golden Rod Stakes at Churchill Downs last autumn. The two-year-olds are: Black Servant (brother to Miss Jemima), blk. c. by Black Toney, dam Vaila.

Bit of Green, b. f. by Cynard—Santa Anna II.
Believe Me Hour, ch. f. by Cynard—Love Not.
Balance Wheel, b. c. by Ben Brush—Whisk Broom.
Behave Yourself, b. c. by Marathon—Miss Ringlets.

Redirection, b. c. by Helmet—Follies Bergers.
Brown Check, br. c. by Black Toney—Benamet.
Blowing Bubbles, ch. c. by Cynard—Macaron.
Blonde Buddy, ch. c. by Cynard—May Bird.
Gallagher Brothers have been awarded names for all of their two-year-olds, with the exception of the good colt by Dick Finnell—Mileage (sister to Madcap, dam of Mad Hatter). The names are Black Rock, br. c. by Rock View—Ida May; Pongee, b. f. by Rock View—Centre Shot; Old Chap, ch. c. by Jack Atkin—Royal Child; Zainer, b. c. by Jack Atkin—Lola Kavanaugh; and Frivol, b. f. by Trap Rock—Little Sister.

DAMASK AND HIS ANTECEDENTS

(Continued from first page.)

long lived race—is still going strong at George J. Long's Bashford Manor farm, near Louisville, and what with Donnacona, Prince Pal, Afternoon and Damask, all of them of St. Simon descent, we may be in for a genuine St. Simon year.

STAKE RACES FOR CANADIAN HORSES

Nominations to the Breeders' Stakes and the Maple Leaf Stakes to Be Run Next Year.

Entries in two Toronto stake races, which will be run in 1921 and which are exclusively for Canadian foaled horses, furnish an interesting exhibit of diversified breeding and are as follows:

Breeders' Stakes.

Breeders' Stakes—For three-year-olds foaled in the Dominion of Canada in 1918, and owned there at time of starting, with \$2,000 added. One mile and an eighth. To be run during the year 1921, at the Ontario Jockey Club may direct.

D. A. Boyle's ch. c. Canadian, by Galatine—Helen Winter, by Starwalt.

Brookdale Stable's b. c. War Fox, by Red Fox II.—Lady Curzon, by Plauditt.

Brookdale Stable's b. c. Herendy, by Heresy—Depends, by The Friar.

Brookdale Stable's b. c. Nomis, by Red Fox II. or Tippecanoe—Elfaun, by Salm.

Brookdale Stable's b. c. Resarf, by Red Fox II. or Tippecanoe—The Belle of Mayfair, by Pride.

Brookdale Stable's b. c. War Canoe, by Tippecanoe—Grandma II., by Riley.

E. Chaney's b. c. O'Bryan, by Charlie Gilbert—Orion, by Star Shoot.

Wilfred Davies' br. f. South Shore, by Orme Shore—Southern Maid, by Plauditt.

Wilfred Davies' ch. f. Fuse, by Calgary—Sky Rocket, by Star Shoot.

Wilfred Davies' ch. f. Witch Flower, by Calgary—Gold Bud, by Ailes d'Or.

Wilfred Davies' ch. f. Bell Joy, by Calgary—Fair Annie, by Hawkswick.

Wilfred Davies' ch. g. Broadway, by First Sight—Loupain, by Kapanga colt.

C. E. Delme's b. f. Eniled, by Plaudmore—Mater, by Fatherless.

Joseph H. Doane's ch. c. Bloor, by Plaudmore—Bridson, by Hastings.

H. Giddings' ch. c. Royal Visitor, by Hearts of Oak—My Honey, by Yo el Rey.

H. Giddings' ch. g. Chief Sponsor, by Hearts of Oak—Widow Wise, by Bassettlaw.

H. Giddings' b. g. Oakling, by Hearts of Oak—Lady Betz, by Hanover.

H. Giddings' br. f. Heath Bell, by Hearts of Oak—Burdette, by Plauditt.

J. G. Gorman's ch. f. Martha Collins, by Bowling Brook or Kingship—Calumny, by Armeth II.

George M. Hendrie's ch. c. Shoulder Arms, by Charles Edward—Shimomese, by Martinias.

Sir John Hendrie's br. c. Orient Bay, by Charles Edward—Micosukie, by Hamburg.

Sir John Hendrie's ch. f. Landless, by Charles Edward—Moki Land, by Sleipner.

Edward Kennedy's br. c. Eddie K., by Dorante—Mabel Hite, by Rannockburn.

Mrs. L. Livingston's b. g. Kicksy Wicksy, by Stanhope II.—Kermess, by Giganteum.

Mrs. L. Livingston's b. g. Spear Half, by Stanhope II.—Simlah, by Armeth II.

Mrs. L. Livingston's br. f. Moll Cutpurse, by Stanhope II.—Missing Link, by Isidor.

Mrs. L. Livingston's b. f. Flea, by Stanhope II.—Flagging Spirit, by Idrium.

Mrs. L. Livingston's b. f. Heartsease, by Stanhope II.—Hebe, by Giganteum.

Mrs. L. Livingston's ch. f. Mouse Ear, by Galatine—Marybud, by Armeth II.

Mrs. L. Livingston's ch. f. Ragged Robin, by Kingship—Aurora Baby, by Armeth II.

R. Newell's gr. f. Greybourne, by Anmer—Grey Nun, by Prince of Melbourne.

Seagram Stable's b. f. Gallipot, by Galatine—Royal China, by Worcester.

Seagram Stable's b. f. Steeple, by Galatine—Church Bell, by Burgomaster.

HAVANA MEETING HIGHLY PROFITABLE

Destination of the Owners, Horses, Riders and Officials Soon to Depart Northward.

HAVANA, Cuba, March 21.—Only a few days more remain of the present highly successful season of racing at Oriental Park and next Sunday, March 28, the curtain will be rung down on the longest and by all odds the best meeting ever given on the island of Cuba. Some idea of the manner in which the present meeting overshadowed those that have preceded it may be gleaned when it is stated that the amount of money handled in the pari-mutuels Sunday, March 14, when the \$10,000 Grand National Handicap was decided, was twice as great as the amount handled on the biggest day of the preceding meeting. The attendance figures on the day in question also outperformed anything recorded in former years and reached a new record for the track.

The crowd, which included the President and his cabinet officers and was prominent in the business and social life of the Cuban capital, was estimated as being close to 15,000.

These figures will probably be surpassed on the closing day when the \$10,000 Cuban Derby will have its inaugural running. Interest in this stake, which will be over the distance of a mile and an eighth, is already at high pitch among all classes of turf enthusiasts. Its running will come as a fitting climax to a most successful meeting. This stake had originally thirty-three nominations, but declarations have reduced the number of eligibles to twenty.

Present indications point to Senor A. H. Diaz, fine colt, Rose Wreath, the most probable favorite. His victory over older horses in the Grand National entitles him to the distinction of being regarded as the most probable winner. He will be opposed by Herron, Mile, Dazie, Black Prince, Horace Lerch, Orleans Girl and Eulish F. The first two named appear to be the Diaz colt's strongest rivals.

The removal of horses has already begun, the Bowie track being the objective of most of them. First to go are the small stables that will be raced at the early Maryland meeting. The larger establishments, however, are remaining here until the close.

Kay Spence, who had intended shipping the W. V. Thunders horse last week, has reconsidered his decision and will remain until the end to saddle Mile, Dazie for Mr. Thunders in the Cuban Derby. Pete Williams is another who has delayed his leaving beyond the time originally planned.

Kentucky will be the objective point of most of the important stables, as well as a great majority of the riders. Carmody, the sensational development of the meeting, who leads the winning riders in America, will probably go to Kentucky to ride, as he will there be entitled to the apprentice allowance. He has already ridden more than one hundred winners at this meeting, a feat never before accomplished here by an amateur rider.

Mr. J. T. Murray, who was the riding "find" of 1919 and who is second to Carmody in the list of winning riders here, will go to Kentucky with the stable of Kay Spence. Kederis, Harry Garner, Chivetta, Eddie Barnes and F. Hunt will also go to Kentucky to ride. Mountain and Pickens are the best of the boys who will go to Maryland.

Judges W. H. Shelley and C. J. Fitz Gerald will depart for their respective homes the day following the meeting's close. Shelley has already outlined his program for the Lexington meeting and will soon start work on the Churchill Downs program book. Ed Jasper, who has filled the dual role of clerk of the scales and entry clerk, will leave for his home in Cincinnati. He will be replaced in the position of entry clerk under Will Shelley on the Kentucky tracks. Racing Secretary M. Nathanson will remain for the automobile races and afterward go to his home in Chicago. In all probability he will not be associated in any capacity with any Canadian tracks the coming racing season. General Manager Frank Bruen will remain here for the annual meeting of the club early in April, after which he will take a brief vacation in the United States. Starter Jim Milton will leave here in time to begin work at the Havre de Grace meeting. His appointment as starter at Pimlico was well received by horsemen here.

Two Cuban Developments

(Continued from first page.)

to work building the gelding up. For nearly five weeks he didn't have a saddle on him and then he began to improve, putting on flesh and playing like a yearling. He ran twice, showing improvement each time, and covering the ground in a way that appealed to those who like a good race horse. Finally when he had raced himself into form he beat a fair band of platers in a canter, coming from last place at the half-mile post to win pulling up. Three other selling plate victories followed in rapid succession and in the last of them he was timed the last three-eighths in 35 seconds. He won that race in a common canter, and Davis, who was uncertain as to the caliber of the gelding, was beginning to receive numerous offers for him, determined to try him in a handicap. He met the best of the handicap division Sunday, March 7, in the Carnival Handicap, at one mile and a sixteenth, and beat Cromwell, Buford, Walnut Hall and others a mile and a sixteenth in 1:45, the last mile in 1:38.

As usual, Baladin was last at the five-eighths post, but he put in a quarter in 24 1/2 seconds at that point and, running the next eighth in 11 1/2, found he was in front with his ears pricked, and he won that way. Although he had only 100 pounds up, there is no saying just how good this Belmont cast-off really is.

He is a rakish, but beautifully balanced, light bay gelding, 16 1/2 hands, and few horses have a finer shoulder. He has a long neck, beautifully placed, and a neat head carried high till he gets into action, when he drops it and attends strictly to business. Baladin's hind quarters are powerful and are commencing to muscle in a way that spells power. He is long from the point of the hip to the hock. Being by Xerxes of the sire of Hounless, and from such a dam, the gelding is bred to do great things on the flat or over the field. Davis has turned down some good offers for Baladin and says he intends taking him to his ranch in South Dakota and turning him out until September, when he will prepare him for a late fall and winter campaign in Kentucky and Cuba. Holtman has had to endure some good-natured badinage for failing to find the key to Baladin's speed, but John Ward and Roscoe Goose are both apt horsemen and the second would appear to be that Baladin's heritage of speed and staying qualities are manifesting themselves as a result of the body building process long delayed.

AUTOBIOGRAPHY OF A FAMOUS TRAINER

John Porter's Own Story of His Connection with Ormonde and Other Grand Racers.

Truly a book to captivate the mind of any lover of turf literature of the highest type is "John Porter of Kingsclere, an Autobiography." This delightful wealth of reminiscence was, as its title page sets out, written in collaboration with Edward Moorhouse. The editorial supervision of the latter accomplished writer had much to do with the directness and simplicity with which the story of one of the greatest trainers of all time is told. One thing he was always greatly pleased with was this.

In 1886 the Prince of Wales (as he then was) sent some horses to John Porter of Kingsclere, the great English trainer, upon the recommendation of Lord Alington. Porter, it was, who persuaded King Edward to buy that great brood mare, Perdita II. Mr. David Falconer, a Mark Lane jute broker, who raced as "Mr. Benholm," owned her and asked a thousand guineas for her. Porter liked the look of her, although she was angular, but she looked like a likely brood matron.

In his autobiography Porter writes:

"I had to see the Prince that morning in his room at the Jockey Club. I told him about Perdita II., and that I had seen her.

"They are asking a thousand for her, sir, but I may be able to get her for a little less. The Prince asked me whether I thought she would do for his stud, and I said 'yes.' 'Then,' said the Prince, 'you can buy her if you can get her for nine hundred.' 'When Sir Dighton Probyn was handing over the money to me, he said, 'You will ruin the Prince if you go on buying these thoroughbreds.' What a bargain Perdita II. turned out! Perdita II. became a perfect goldmine. The Prince, some years after he had become King, said to me: 'When you bought her you as good as made me a present of a quarter of a million of money.'"

King Edward had all his racing for nothing. The produce of Perdita II. won twenty-six races, worth \$364,465, including Persimmon's \$173,530, Diamond Jubilee's \$145,925 and Florizel II.'s \$39,290. When at the stud those three horses earned about \$750,000 in fees. Diamond Jubilee was sold to the Argentine for \$150,000, and Sandringham (another son) went to the United States. And so we get at the quarter of a million which King Edward calculated he had realized by the aid of the produce of that game little mare we saw win at Chester, about the time that real "old slave," Whipper-In, the Kingsclere trial horse, was winning races every year on the ancient "soup plate" course.

Subsequent chapters in this autobiography deal with that luckless horse, Friar's Balsam; with Sainfoin and Common; Orme and La Fleche; Throistic and Matchbox; and, of course, Flying Fox. Porter declares Orme to be seven pounds to ten pounds behind his sire, Ormonde. He does not hold any exalted ideas of the merits of Flying Fox. I have always thought he was a good horse. . . . It may be he was not so wonderful as we were at the time inclined to think. The sale of the Eaton horse is well told, and concludes with the comment that "what was Mr. Sievier's good luck was our misfortune."

As showing how charmingly John Porter writes and how deeply he goes into the subject of blood lines and their values, we quote the following:

"I have always looked upon Hermit as a good Derby winner, but he might have failed had not Captain MacNeill been compelled to give him an easy time for ten days or so owing to the breaking of a blood vessel. Hermit was a delicate horse and did not require much work. This was the case with most of Newminster's sons and daughters.

"It used to be the fashion in those days, and not without reason, to impose Newminster blood on that of Stockwell, or vice versa. The Birdcatchers often had curly hocks; descendants of Touchstone very seldom had a curb. On the other hand, many of the Touchstones had straight shoulders, and not the best of forelegs, defects which the Birdcatchers rarely displayed. The offspring of Stockwell were much harder than those of Newminster.

"As a rule, a mare by Stockwell was a far better mother than a mare by Newminster. The former had a great supply of milk. This is a characteristic which Bend Or, a grandson of Stockwell, transmitted to his daughters, and a very valuable one it is."

In 1898 the Duke of Portland's horses went to Kingsclere to be trained, and the autobiography recalls stories of La Roche, William the Third, the closing years at Kingsclere, and the laying of the Newbury race course, a scheme upon which Mr. Porter staked his good name and fortune when his training days were over. The appendix to the book is full of entrancing figures. For Sir Joseph Hawley, John Porter won 115 races, worth \$347,885; for Mr. F. Gifford, 145 races, worth \$188,356; for Mr. John Gifford, 55 races, worth \$58,490; for Lord Alington and Sir F. Johnston, 194 races, worth \$517,769; for the late Duke of Westminster, 210 races, worth \$1,234,720; for the late King Edward, 18 races, worth \$33,840; for Mr. W. Low, 67 races, worth \$132,670; for Mr. Francis Alexander, 33 races, worth \$58,525; for the late Baron Hirsch, 39 races, worth \$221,155; for Lord Crewe, 16 races, worth \$55,695; for the Duke of Portland, 48 races, worth \$267,045, and for the present Duke of Westminster, 16 races, valued at \$15,120.

All told, John Porter's 425 successful horses won 1,063 races, valued at \$3,600,165, and add to that the sums credited to horses that were placed second and third, to wit, \$337,810, we arrive at a grand total of \$3,937,975. Seven times did John Porter's horses win the Derby, three the Oaks, six times the St. Leger, five times the Two Thousand Guineas and twice the One Thousand Guineas.

There is not a word of malice in the book—a wonderful story of a "life" which knew its moments of anguish as well as its hours of great joy. The misty morning that Porter first heard Ormonde make a "whistling noise" must have been the darkest day in the career of one who served his employers so well, so faithfully and so zealously. This autobiography is a great book.

This remarkable contribution to turf history is published in London by Grant Richards, Ltd., St. Martin's St., and would cost an American buyer \$7.90.

THIRTY LEADING AMERICAN JOCKEYS

At Havana last week riders F. Wilson and F. Chivetta were fortunate enough to ride the winners of seven races, Wilson's feat bringing the lad into the list of thirty most successful winners. Next to this pair were H. Garner at Havana, and C. McCorkle at Tijuana with five winning mounts each. D. Connelly, P. Martineau and R. Pinnegar at Tijuana, and A. Pickens at Havana, did well with four each. Before leaving for his home and a rest, leader J. Carmody added two to his imposing list of races won and seems to be destined to remain in his present position for a long time to come. Including Saturday's racing, the 1920 riding records of the thirty leading riders are now:

0.663 races, valued at \$3,600,105, and add to that the sums credited to horses that were placed second and third, to wit, \$337,810, we arrive at a grand total of \$3,937,915. Seven times did John Porter's horses win the Derby, three the Oaks, six times the St. Leger, five times the Two Thousand Guineas and twice the One Thousand Guineas.

HAVANA FORM CHART

HAVANA, CUBA, SUNDAY, MARCH 21, 1920.—Oriental Park. One hundred and third day. Cuba-American Jockey and Auto Club. Winter Meeting of 110 days. Weather raining; temperature 70°.

Presiding Steward, C. J. Fitz Gerald. Presiding Judge, W. H. Shelley. Starter, James Milton. Racing Secretary, Martin Nathanson.

Racing starts at 2:30 p. m. (Chicago time 2:00 p. m.). W indicates whip, S spurs, B blinkers. Figures in parentheses following the distance of each race indicate date, track record, age of horse and weight carried. *Indicates apprentice allowance.

46469 FIRST RACE—5 1-2 Furlongs. (Jan. 24, 1917—1:05½—5—102.) Purses \$600. 3-year-olds and upward. Claiming. Net value to winner \$450; second, \$100; third, \$50.

Time, 25½, 50½, 1:03, 1:10½. Track sloppy.

\$2 mutuels paid, May Craig, \$15.50 straight, \$7.50 place, \$3.40 show; Virgie Lee, \$8.70 place, \$4.40 show; Hazelnut, \$3.00 show.

Equivalent betting odds—May Craig, 690 to 100 straight, 285 to 100 place, 70 to 100 show; Virgie Lee, 325 to 100 place, 120 to 100 show; Hazelnut, 50 to 100 show.

Winner—Ch. f. by Master Robert—False Sight, by Deceiver (trained by H. E. Davis; bred by Messrs. John D. Carr & Bro.).

Went to post at 2:19. At post 1 minute. Start good and slow. Won easily; second and third driving. MAY CRAIG was outpaced in the early running, but worked her way up on the outside and, finishing fast in the middle of the track, won going away. VIRGIE LEE saved ground on all the turns and finished gamely. HAZELNUT tired after racing into a clear lead. SHIRO quit in the last quarter. VADA BELLE ran poorly.

Scratched—46362 Farnum, 105; 46322 Vulcanus, 102; 46429 Frederick Miller, 109.

Overweights—Virgie Lee, 3 pounds; Vain Chick, 5.

46470 SECOND RACE—5 1-2 Furlongs. (Jan. 24, 1917—1:05½—5—102.) Purses \$600. 3-year-olds and upward. Claiming. Net value to winner \$450; second, \$100; third, \$50.

Time, 25, 50, 1:03½, 1:11. Track sloppy.

\$2 mutuels paid, Fortune's Favor, \$21.20 straight, \$7.80 place, \$5.10 show; Ambassador III., \$4.90 place, \$3.40 show; Felicidad, \$6.40 show.

Equivalent betting odds—Fortune's Favor, 960 to 100 straight, 290 to 100 place, 155 to 100 show; Ambassador III., 145 to 100 place, 70 to 100 show; Felicidad, 220 to 100 show.

Winner—B. f. by Ormondale—Pamela, by Hamburg (trained by U. J. Hak; bred by Mr. John E. Madden).

Went to post at 2:46. At post 3 minutes. Start good and slow. Won easily; second and third driving. FORTUNE'S FAVOR dropped back in the early running, but closed a gap with a rush in the last quarter and won going away. AMBASSADOR III. saved ground when entering the stretch and made a fast finish. FELICIDAD ran well in the going. THE SNOB finished with a rush. LUCIE MAY set a good pace, but made a bad turn when entering the stretch and lost ground.

Scratched—46332 Rockaway, 96; 46363 Weymouth Girl, 109; 45289 Steadfast, 106.

Overweights—Fortune's Favor, 1½ pounds; Lucie May, 2; Felicidad, 4.

46471 THIRD RACE—5 1-2 Furlongs. (Jan. 24, 1917—1:05½—5—102.) Purses \$600. 3-year-olds and upward. Claiming. Net value to winner \$450; second, \$100; third, \$50.

Time, 26½, 50, 1:10. Track sloppy.

\$2 mutuels paid, Golden Chance, \$10.70 straight, \$4.10 place; Helen Atkin, \$4.20 place; no show mutuels sold.

Equivalent betting odds—Golden Chance, 435 to 100 straight; 105 to 100 place; Helen Atkin, 110 to 100 place.

Winner—B. g. by Zai—Bernaise, by Sempronius (trained by H. E. Davis; bred by Mr. William Gerst).

Went to post at 3:11. At post 1 minute. Start good and slow. Won easily; second and third driving. GOLDEN CHANCE raced into the lead on the last turn and drew away in the last eighth, then ran away two miles after the race. HELEN ATKIN ran well and passed QUIN in the last sixteenth. The latter also ran away two miles after the race. UNAR showed speed, but QUIN in the last sixteenth. Scratched—46364 Premium, 108; 46417 Encore, 108; (46416) May Maunshy, 103; 46443 Magie Mirror, 105; 46445 Bagdadine, 108.

46472 FOURTH RACE—3-4 Mile. (Jan. 8, 1920—1:11—6—102.) Purses \$600. 3-year-olds and upward. Claiming. Net value to winner \$450; second, \$100; third, \$50.

16472	FOUR	AC	ME	5	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10	10

Time, 24, 48, 1:15½. Track sloppy.

\$2 mutuels paid, Meliora, \$4.20 straight, \$3.00 place, \$2.50 show; Ed Garrison, \$3.90 place, \$3.00 show; Walter Mack, \$3.00 show.

Equivalent betting odds—Meliora, 110 to 100 straight, 50 to 100 place, 25 to 100 show; Ed Garrison, 95 to 100 place, 50 to 100 show; Walter Mack, 50 to 100 show.

Winner—Ch. m. by Ultimus—Altiora, by Lamplighter (trained by H. J. Kennedy; bred by Estate of Mrs. E. L. Israel).

Went to post at 3:35. At post 2 minutes. Start good and slow. Won easily; second and third driving. MELIORA raced into the lead on the turn out of the backstretch and, drawing far away, was eased up through the last sixteenth. ED GARRISON ran well and easily disposed of WALTER MACK in the last eighth. The latter set a fast early pace and tired badly. MARION HOLLINS was eased up when she tired. MIKE DIXON and FOSTER EMBRY ran much below their recent good form.

Scratched—46365 Hocinr, 108.

Overweights—Ed Garrison, 1 pound.

46473 FIFTH RACE—1 1-8 Miles. (Jan. 18, 1920—1:50½—6—105.) Purses \$1,200. 3-year-olds and upward. Handicap. Net value to winner \$900; second, \$200; third, \$100.

Time, 25, 50, 1:17½, 1:45. Track sloppy.

\$2 mutuels paid, Cromwell, \$3.70 straight; no place or show mutuels sold.

Equivalent betting odds—Cromwell, 85 to 100 straight.

Winner—Bk. g. by Plaudit—Affect, by His Highness (trained by C. K. Moore; bred by Mr. John H. Morris).

Went to post at 3:58. At post 1 minute. Start good and slow. Won easily; second and third driving. CROMWELL set a good pace from the start and, drawing away in the stretch, won in a canter. BALADIN finished gamely and outstayed HUBBUB for second place. HUBBUB raced in closest pursuit to the stretch and tired. HANK O'DAY tired badly and was eased up.

Scratched—46433 Lolite, 102; 46366 Buford, 108.

46474 SIXTH RACE—1 1-8 Miles. (Feb. 3, 1918—1:44½—3—92.) Purses \$600. 4-year-olds and upward. Claiming. Net value to winner \$450; second, \$100; third, \$50.

\$2 mutuels paid, Will Soon, \$8.90 straight, \$5.70 place, \$3.50 show; Leoma, \$10.20 place, \$8.50 show; Duke of Shelby, \$3.00 show.

Equivalent betting odds—Will Soon, 345 to 100 straight, 185 to 100 place, 75 to 100 show; Leoma, 410 to 100 place, 325 to 100 show; Duke of Shelby, 50 to 100 show.

Winner—B. g. by Dr. Leggo—Yorba, by Solitaire II. (trained by J. S. Baldwin; bred by Mr. Adolph E. Spreckels).

Went to post at 4:22. At post 2 minutes. Start good and slow. Won easily; second and third the same. WILL SOON raced extremely wide on the first turn and again when entering the homestretch, but won LEOMA down in the last sixteenth and got up to win in the final strides. LEOMA set a good pace to the last sixteenth, but tired right at the end. DUKE OF SHELBY ran well, but also tired finally. CHANNONETTE II. ran fairly well. CORK finished fast after dropping back in the early racing.

Scratched—46401 Guide Post, 107; 46284 Jose de Vales, 112; (46429) Native Soil, 108.

46475 SEVENTH RACE—1 Mile. (March 23, 1919—1:38½—5—105.) Purses \$700. 4-year-olds and upward. Claiming. Net value to winner \$500; second, \$125; third, \$75.

46475

SEVENTH PLACE. Claiming.

and upward. Claiming.

Net value to winner \$500; second, \$125; third, \$75.

46365	"PROPHY"	WB	5	115	6	6	6	7	7	7	F Atkins	W F Polson	6	6	6	2	6-5

Time, 24½, 49½, 1:17, 1:45½. Track sloppy.

\$2 mutuels paid, Hands Off, \$6.80 straight, \$4.00 place, \$3.00 show; The Talker, \$6.30 place, \$4.20 show; Gordon Russell, \$3.90 show.

Equivalent betting odds—Hands Off, 240 to 100 straight, 100 to 100 place, 50 to 100 show; The Talker, 215 to 100 place, 110 to 100 show; Gordon Russell, 95 to 100 show.

Winner—B. g. by Plaudit—Meddling Mary, by Meddler (trained by J. Armstrong; bred by Mr. Arthur B. Hancock).

Went to post at 4:47. At post 1 minute. Start good and slow. Won easily; second and third the same. HANDS OFF was forced wide on the first turn and when entering the stretch, but finished gamely and just managed to last long enough to win. THE TALKER saved ground when entering the homestretch and finished next to the rail. GORDON RUSSELL tired after setting the pace to the stretch and racing BYRNE into defeat.

Scratched—46232 Lariat, 93; 46381 Buster Clark, 97; 46421 Tokalon March, 102; 45815 Bierman, 100; (46421) Harlock, 108; (46420) Solid Rock, 108; 46420 Buck Nail, 112.

GROTESQUE JERSEY FISH

Many Curious and Freaky Denizens
of Eastern Shore Seas.

Some Are Poisonous and Many of
Odd Shapes, Sizes and
Habits.

Grotesque fishes are not confined to the tropics. The temperate and colder waters have their share. In the two areas between Cape Hatteras and Newfoundland are perhaps as many families and species of outlandish, grotesque or downright hideous appearance, as are about the islands off the coast of the southern United States and from Cape Hatteras to Brazil.

The greatest number of species is found along the New York and New Jersey coast, for this stretch of water seems to be the point where the fishes of the northern and the southern areas meet and mingle with those that range from Cape Hatteras to Cape Cod.

Naturally, therefore, some of the species are abundant, others not uncommon, and some scarce, writes the well-known authority on ichthyology, W. E. Meehan, in the Philadelphia Record. Some have a food value, others have none, and a few, while edible, have so little flesh on their bodies that they are not worth the trouble of preparing them for the table. Most of them are hooked readily, and are therefore great nuisances. Others rarely bite.

Among the families of grotesque fishes appearing in greater or less abundance along the New Jersey coast are the swell fishes, the porcupine fishes, the trigger fishes, the frog fishes, the sea horses, the pipe fishes, the scabbard fishes, the toad fishes, the star gazers, the wolf fishes, the blennies, the trunk fishes and the head fishes. Some of these are among the largest fishes known; most of them are medium size and others are small.

A good proportion of the families named belong to a single group, though not generally considered a distinct order because the families comprising the series differ from each other so widely. Some of the characteristics of the series as set forth by Dr. Jordan are the reduction and final entire loss of ventral fins; the reduction and loss of the spinal dorsal; the compression and final partial or total fusion of the teeth of the upper jaw; the specialization of the scales, which change from bony scutes into a solid coat of mail on the one hand, and on the other are reduced to thorns or prickles and are finally altogether lost.

POISONOUS FISHES OF JERSEY COAST.

Among the group, and some that are found along the New Jersey coast, are families containing species that are distinctly poisonous. The venom is in the form of alkaloids, that produce a disease known as ciguatera, characterized by paralysis and gastric derangements that may cause death among the lower animals and possibly with men.

The commonest of the lengthy list of grotesque types are the swell fishes. Every person who fishes in the salt water is well acquainted with one of the two species, though not with the other, for it is scarce, as its natural abiding place is farther south.

The species best known is the common puffer, better known in New Jersey as the balloon fish, although it is also called the swell fish and swell toad.

No greater nuisance swims in the temperate sea than the puffer. It is a ravenous feeder and eagerly swallows almost any sort of food that comes its way, and as it swims in schools, and often large ones, anglers are sometimes driven from a favorite fishing ground because of the enthusiastic pertinacity with which the fish takes the bait.

It is noteworthy, however, that annoying as the puffer undoubtedly is, its attentions are regarded with less irritation than usual with other pestiferous fishes—the sea robin, for instance, with its conciliatory smile and deprecating grunt when hooked and landed.

Instead of smashing the puffer, violently on the bottom of the boat, often to the accompaniment of bad language, it is more often the custom to tickle it on the belly till it swells like a balloon and then throw it overboard unharmed.

It is this peculiar power of expanding the walls of the belly that the fish uses as a means of defense. It is chiefly responsible for placing the puffer among the grotesque fishes, although the outlines of the body do depart from the lines normal to most species.

The expansion is caused by the fish sucking air with its stomach and closing the throat tight. No boy could make a better or more complete job of inflating a football than the puffer can with its own body. Furthermore, the fish can close its throat so tight that a man cannot force the air out by the strongest pressure he can exert with his hands. The inflation of the body is about the only protection the fish has against its enemies.

PECULIARITIES OF PUFFER FAMILY.

A carnivorous fish has no more chance of biting through that living ball than it would one of India rubber.

The mouth of the puffer is small, but it is armed with sharp incisors, projecting beyond the lips, and rabbit-like in appearance; hence the name rabbit fish that is sometimes bestowed on it.

The common puffer grows to a length of about a foot, although its average is rather less. It is dark olive above, marbled and dotted with black. There are dark blotches forming cross-bars on the sides. The belly is yellow.

The other and rarer species of puffer is a larger fish, for it often attains a length of two feet. Its native waters is in the south, but in the summer large numbers roam as far north as Cape Cod.

It is quite distinct in appearance from the common puffer. It has a smooth body, its back and sides are olive green and its belly silvery white with three large rounded spots.

A different family, but closely related to the swell fishes, are the porcupine or burr fishes. There are also two species on the Atlantic coast, the burr fish proper and the porcupine fish. The latter belongs altogether in the south and only a few specimens are met with in northern waters. It is the larger of the two species and has long, slender spines entirely covering the body.

The common burr fish, although really abundant during the summer months as far north as Cape Cod, is yet only occasionally caught by anglers, for it does not take the hook as readily as the puffers.

It is emphatically among the oddities in fish life. Small, seldom exceeding six or seven inches, it is shaped much like a flat-bottomed dory or rowboat. Its back and belly are flat and its perpendicular sides are curved to a point at the tail, while nearly square at the head. The body to the neutral lines is covered with a shell of the same character and thickness as the shell of a crab, and thickly dotted over this shell are short sharp spines.

There are holes in the sides of the shell for the pectoral fins and in the tail for the caudal. Because of this shell the fish cannot swim like other fishes by undulations of the body and tail, but must propel itself through the water by means of the three fins mentioned.

As a consequence, instead of the smooth, easy motion so noticeable in ordinary fishes, the burr fish proceeds by short, quick, tremulous jerks, remarkably like the progress of a motorboat. Like the puffers, the mouth of the burr fish is small, and like them also, is fitted with sharp, rabbit-like teeth.

The eyes are not the least interesting feature of the fish. They are large, set high in the head, almost like a frog's, and this is heightened by a ridge above them. The eyes themselves are of a beautiful turquoise blue. The general color of the body is greenish, with a series of parallel blackish stripes on the back. Above each pectoral is a roundish black spot, with a larger one behind it. There is another at the base of the dorsal and a smaller one below it.

SPIKED CUCUMBER OR BURR FISH.

The burr fish, in common with the puffer, has the power of sucking air into its body and expanding it into a round ball, giving it the appearance of a chestnut burr, hence the name burr fish. It is also sometimes called cucumber fish, because of the prickles on the normal body shape.

In the world's history there have been several periods in which there were great changes in the form of most fish life. One of these changes occurred in the piscine or first part of the tertiary period. Many of the freakish types appeared at this time, among them the sculpins. For singularity in outline and characteristics few equal it.

It developed into a large family, with representatives in nearly all the colder waters of the world, both salt and fresh. Most of them are quite small and of no value for food or angling purposes. A few, however, are of fair size and are cold, but not of high quality. Only one species is found in the ocean as far south as New Jersey, and this is the sea raven.

It is rarely caught by anglers, for it prefers deeper water than they fish in. Early in the season, however, when the water is cold, the sea raven is frequently taken in the pound nets. At a cursory glance the sea raven looks like a sea robin that

has been in a desperate fight. Its large head is covered with humps and ridges and most of its fins appear to have been torn to ribbons. Its body is russet brown and its wings have harlequin markings, while its fins are variegated with blackish waving lines.

Few fishes found along the New Jersey coast have a reputation for being anywhere dangerous or unhealthful as food. Some of the trigger and file fishes are, however, in the short list of those deemed unwise to cook and eat. Most of the members of this family—and there are about 100 species in it—belong in the tropics, and many of them undoubtedly have an alkaloid poison in the flesh.

Among the tropical species are many with coloring that can only be described as loud, as, for example, big blocks of black and yellow, or blue and yellow, or red and black, or combinations of that character.

The one species of trigger fish that is found in any number along the New Jersey coast, however, is neither poisonous nor brilliantly colored. On the contrary, the flesh is quite palatable, so much so that in the Bermudas, where the fish is abundant, it is called the turbot. Its color is a dirty brown. Along the northern coast the fish is known as the ocean trigger, and is one of the most common of the times old wife. It is not often caught on hook and line, although quite plentiful in the summer as far north as Massachusetts, not because it does not take the hook, but because it is a genius for evading capture. When it picks up a bait, instead of swallowing it and swimming away, it takes it gently by its lips and then starts straight up for the surface. Just as like as not during its upward movement it will bite the line in two with its sharp teeth.

FREAKY OCEAN TRIGGERS AND FILE FISH.

The ocean trigger as well as all the other triggers proper are emphatically in the freak class. Its body is described as oblong, but roughly double triangular seems a more fitting description. The black dorsal and the anal fins are large, but the front dorsal is low and with three heavy spines, the second of which is the operating trigger. A couple of small spines represent the ventrals. As the pectorals are small, the balancing of the fish must be done by the dorsal and the anal, apparently a feat, for the ocean trigger is only a couple of inches through and five or six times more than that from the arch of the back to the deepest part of the ventral line. The skin of this species is used in the south for scouring and polishing, and in the north it is used almost exclusively for polishing fine wood.

The file fishes belong to the same family as the triggers, but are of a different genus or tribe. Two species are fairly numerous along the New Jersey coast during the warm months. One is known as the fool fish and the other as the leather jacket or old maid. For a while the first name caused an involuntary feeling of pity for they are emaciated to the point of little more than skin and bones. They have the appearance of being starved almost to the point of death. This dreadful appearance is so realistic that it is not infrequently heard of visitors to public aquariums exclaiming indignantly against those in charge for their heartlessness in not giving the fish enough food to make them plump. Perhaps that is one reason why the members of the group are called fool fishes.

The fool fish or common file fish is quite small, rarely exceeding six inches in length and about the same in depth. It is a dull greenish in color, mottled with darker green. The fool fish is a voracious eater and is a very fast swimmer. It spends all the time possible leaping up against some object, and, like the typical lazy man, prefers to have its food come to it rather than exert itself hunting.

Old maid, old wife, leather jacket, barnacle eater and fool fish are some of the names bestowed on the rather and larger species of the file fish. The name fool fish is not altogether inappropriate, aside from its deceptive appearance, for it has a rather silly expression around its small mouth with protruding lips, and it has an apparently purposeless habit of coming to the surface and ejecting mouthfuls of water, for all the world like a tobacco chewer's expectoration. The name leather jacket is appropriate only in so far as the skin has a leathery texture, for no leather has the sheen and the coloring of the covering of the fool fish. It is a peculiar golden green, with marble and shades of olive, and when the fish is perfectly healthy it shines like burnished metal.

HEAD AND SUNFISHES AND SEA HORSES.

In some respects the head fishes are the most remarkable appearing of all the funny tribe. To all appearances their bodies have either been shorn off close behind the head or part way along the trunk, and a narrow caudal fin attached. This shorn-off appearance is accentuated by the long, spiky dorsal and anal being close to the rear of the fish.

The head fishes are among the largest known and there are but few species known; one, the great sea sunfish, is not uncommon along the North Atlantic coast in summer. It is a huge fish, weighing close to 1,000 pounds, and is almost as round as a cartwheel, and it is almost as proportionately thin.

The sea sunfish is among the largest of fishes, and spends hours on the surface of the water sunning itself. Hence its name. Sometimes it rests on its side and sometimes holds itself in an upright position. In that case its long, narrow dorsal, projecting far above the water and waving slowly to and fro, renders it an object that can be seen for a long distance. The fish is so lazy that it is easy to approach near enough with a rowboat to harpoon it—the usual manner of capture.

Although the sea sunfish is not uncommon in northern waters, it is seldom seen, because, being of a true pelagic character, it usually keeps well out to sea. Sometimes, probably two or three times each summer, one in its sluggishness allows itself to be drifted into the breakers, where it becomes helpless and is washed ashore. As a pelagic fish the sea sunfish is found in both the Atlantic and Pacific and in nearly all the big seas.

The sea sunfish is scatheless, but rough and leathery. The mouth is small, but contains strong teeth. This is peculiar, for its chief food is supposed to be jellyfishes. While not poisonous, the flesh is not palatable, for when cooked it separates into oil and tough fillets. The oil, however, is reputed to be a good remedy.

In the entire world of fishes there is, perhaps, no fish more freakish in appearance, or that causes more interest, than the sea horses. There are not many species in the world, and most of them are so much alike that it is hard to distinguish them. Only one species is common along the New Jersey coast, and it is one of the smallest of the family.

The fish is well named sea horse, for its outline is the exact reproduction of a horse's head and neck, with a curly prehensile tail attached. The fish is abundant in the shallows of the bays and water holes, where it is concealed among the seaweeds and grasses, to which it clings by means of its tail. Its foods are small shrimps and animalcules. The color is black and the skin leathery, covering little flesh, so that the fish when captured dries readily and makes a favorite curio object.

CURIOUS PIPE AND SCABBARD FISHES.

Wonderful as the sea horse is in appearance, its breeding habits are more wonderful still. It is perhaps almost the only creature in the world in which the male parent is in every respect, excepting the actual production of the egg, the mother of the young. In the body of the sea horse near the base of the tail is a pouch, and in that pouch the female deposits fertilized eggs. These eggs the male fertilizes and carries them around in the pouch until hatched and the young are strong enough to emerge and look out for themselves.

Scarcely less curious and closely related to the sea horses, separated indeed by tribal differences only, are the pipe fishes. There is but one species common along the New Jersey coast. It is a small creature, rarely exceeding seven inches from the tip of its snout to the end of its tail. The body of the pipe fish is round and as slender as the old-fashioned, clay straight pipistem. The head is minute, but the snout is nearly as long as the body, and on the end of it is a protuberance similar in appearance to the nostrils of a hog. The little greenish body, as though it needed reinforcement, is banded with numerous little rings or bands.

The cutlass or scabbard fish may properly be placed in the list of freakish-looking fishes. It is in a family in which there is no other representative in this part of the world. Closely related to the mackerel family, it is totally unlike any of those great food fishes in appearance. It does not even have the graceful outlines of the pelagic fishes, although it is one.

The fish has the drawn-out body of the eel without its rotundity; indeed, one of its popular names is silver eel, and it has a head somewhat resembling a pike, with a mouth filled with sharp, unequal, wicked-looking teeth, some of them barbed. The cutlass fish has no caudal fin; instead, its tail tapers to a point. The fish is also without ventral fins, and its dorsal is low and extends nearly the whole length of the back. Only the small, smooth scales betray the pelagic fish. The color is bluish silver, somewhat deeper on the back. The cutlass fish is a wicked, savage-looking fish, and its actions bear out its appearance.

One of the names scabbard fish is given because in shape and general appearance the body resembles the scabbard of a sword. For this reason in Florida and southern Louisiana it is sometimes called swordfish. Because of its leaping tendencies it also bears the name skipjack in some places. The cutlass fish is seldom taken on the hook and line only because it is so far away from the shore than anglers usually venture.

Annual Racing Form

THE INTERNATIONAL AUTHORITY ON AMERICAN RACING

Circulating in the United States, Cuba, Philippine Islands, Canada, Mexico, England, France, Germany, Austria-Hungary, Australia, India, Argentina, Chile, Peru, etc. etc.

THIS BOOK CARRIES

indexed form charts of all recognized racing in the United States, Canada, Cuba and Mexico, has supplanted all others for the use of racing officials and is universally used by jockey clubs throughout the world. Compact, accurate, perfectly printed, with absolutely correct index, on linen paper, lettered, and bound in flexible leather. Contains, besides charts of all recognized racing on American tracks, the American and Canadian time records, scales of weights of various governing bodies and records of jockey mounts in the United States, Canada and Mexico, for the year.

The Special Attention of Students of Form

is directed to the method of indexing the charts. The index shows each and every start of all horses that have raced, with firsts, seconds, thirds and track conditions designated on the occasion of each and every start. By means of this innovation it is possible for the user of the Form Book to instantly determine a horse's ability to run on any sort of track concerning which information is desired, as shown in the following example:

LAST SPARK, ch. g, 5, by Martimas—Flicker (H. A. Cotton) X											
130971	*31088h	131252m	131453h	*31497s	*31523s	*31615	131632	131729	131824

*34688	*34749	*34817									

"h" for heavy, "m" for muddy, "sy" for sloppy, "s" for slow; races not otherwise designated were over fast or good tracks.

The alphabetical sign before each race number shows the distance at which the race has been run according to the key below:	
1-4 and 3-8 Mile	A
3 1-2 Furlongs	B
1-2 Mile	D
4 1-2 Furlongs	F
5-8 Mile	G
5 1-2 Furlongs	H
3-4 Mile	J
6 1-2 Furlongs	K
7-8 Mile	L
7 1-2 Furlongs	M
1 Mile	N
From 1 Mile 20 Yards to 1 Mile 100 Yards	O
1 1-16 Miles	P
1 1-8 Miles	Q
1 3-16, 1 1-4 and 1 5-16 Miles	R
1 1-2 Miles	S
1 5-8 and 1 3-4 Miles	T
2 to 3 Miles	U
3 to 4 Miles	V

Annual Racing Form

has been oversold for the past few years and the attention of prospective purchasers of the 1919 edition is respectfully called to the desirability of placing orders early.

PUBLISHED IN TWO VOLUMES

Price, Per Volume, \$10
